

## **Class XII Biology students attend Catalyst, AIIMS**

On 11th of April 2019, biology students of class XII along with Tr. Anita Arora attended 'Catalyst' an annual event organised by the Student Union of AIIMS.

Through Exposition- the exhibition- the students were acquainted with the anatomical organs. Various slides with the sections of organs and microorganisms were also present. The students also got to know the working of many Diagnostic devices, for example, ECG, Spirogram , Sphygmomanometer and Blood Group testing.

Basic life saving techniques, for example CPR was taught through demonstration as well. The event proved to be an enriching experience as it helped the students to gain an insight into the practical functioning of the human body and comprehend the theory in a better manner.
