

## CHRISTMAS IN COVID TIMES

The students of the Junior School depicted the true meaning of Christmas through their stellar performances. The story of Christmas was woven into the present situation meaningfully and thematically. The three acts of the skit highlighted how Mother Mary accepted the will of God to bring forth Jesus Christ, drawing a parallel with a young woman who is willing to adopt a child. Mother Mary made haste to help her cousin, Elizabeth, who was also going to have a child. In the modern scenario a mother who has lost her job during the ongoing pandemic goes out of her way to help the domestic help with some money. In the last act the students highlighted the shelter given by an innkeeper to Mary and Joseph during their search for a place to have the baby, likening it to a generous merchant and his wife providing accommodation to a migrant labourer. The melodious voices of students singing the carols added to the charm and beauty of the narration. In her speech the Principal Sister Tina Maria reminded us that we are invited by God to be messengers of hope, love and generosity. The pandemic is a situation and opportunity given to us to manifest God's divinity and benevolence.
