

## Earthquake Mock Drill – 23<sup>rd</sup> April 2024

According to the Department of Education guidelines, an Earthquake Mock Drill was conducted at the school on April 23, 2024. The entire school community, including students and staff, actively participated in the drill. Upon hearing the alarm, students promptly evacuated the building using predetermined routes and gathered at the designated assembly point, the basketball grounds. Teachers provided guidance to ensure students moved swiftly down the stairs along the designated paths. These evacuation drills are integral to the school's safety procedures, ensuring preparedness in the event of an actual earthquake.
